Archies Creek

Delicious Free Range Beef - Born and raised at our Archies Creek Farm

Best meat, best for the animal, best for the environment

No Hormones, just lots
of Love

The animals are transported to the local abattoir and butcher, then delivered directly to you.

Ask for a free recipe leaflet with easy suggestions for each cut of meat.

We love our lifestyle and take time to have a cuppa with neighbours, show potential customers around and share our great location

Animal Husbandry is a priority

Calving cows get round-the-clock care, and calves are monitored daily

Our extensive creek frontage has been fenced off and planted with locally provenanced trees and shrubs to link up with neighbouring wildlife corridors and provide shade and shelter to our stock.

We are working through a world-class on-farm environmental management system (EMS) whereby we monitor and improve practice in the areas of grazing management, soil and fertiliser management, weed and pest management, biodiversity and water quality.
